WE DROP SHIP

Why drop ship? It's simple; drop shipping product saves you time, money, and expands product selections. All of this adds up to increased sales and higher margins in the product category.

Drop shipping reduces inventory and warehouse costs, not to mention labor costs associated with product handling. Jordan takes the hassles out of the drop shipping process by maintaining inventory levels to ensure on time delivery of products direct to your store or your customer's home. In most cases, Jordan ships within a three to five working day window of receiving the order.

Jordan is fully EDI capable and has been for a number of years, which means faster and more accurate processing of orders. Sit back, relax, and let Jordan take the headache out of drop shipping!
