

Jordan

MANUFACTURING COMPANY, INC.

Monticello Indiana

INTRODUCTION

Jordan Manufacturing Company, Inc. is a privately owned and operated business with domestic locations in Monticello IN and Kentland IN. We also have international locations in Vietnam and Taiwan. Over the course of 45 years, Jordan Manufacturing Company has continued to thrive while many competitors have ceased to exist. Personalized service along with superior quality standards have helped drive our growing business. Caring about our customers and their needs have helped solidify our position in the industry. We partner with our customers to reach the right decisions and solutions for both parties. This combined with great service has given us the winning formula for success. We are continuously reinvesting in our company with state of the art equipment and a vertical manufacturing process to ensure competitive and fair prices.

Kentland Indiana

OMNICHANNEL PRESENCE

As an omnichannel marketer, Jordan Manufacturing Company offers dropship order fulfillment services and has full EDI capability for faster, more accurate order processing. Choosing Jordan for your dropshipping needs will save your business on inventory storage, product handling labor costs, and time needed to process and send orders. We're here to help your business stay efficient and get orders delivered to retail stores or directly to your customers' homes on time. Jordan Manufacturing can process most drop ship orders within just 3-5 business days of receipt. Our dropship programs offer a digital extension of the shelf to supplement your in-store assortment, online-exclusive patterns and styles, or new and seasonal products being tested. This creates an opportunity to extend your online outdoor cushion and pillow programs for late-in-the-season sales, giving your consumers more choices while reducing associated risks and expenses. Jordan's talented Sales Team can create a plan individually designed for your programs and needs.

MISCELLANEOUS INFO

Cushion Dimensions

Due to the nature of our cushions being hand made, sizes may vary slightly from catalog sizes.

Customer's Own Materials

COM orders are priced using the "A" grade prices. All fabric shipments must be accompanied with a packing slip showing the necessary information needed to process the order. Ship all material to "Attn: Jor CSD," 1200 S. 6th Street, Monticello, IN 47960. JMC is not responsible for returning fabric remnants and does not warrant quality of fabric when customer supplies their own fabric. Yardage given is based on 54" wide roll goods. If using a stripe pattern allow for more yardage.

Return & Cancellation Policy

Returns must be authorized by JMC and must be accompanied with a copy of the original order. No cancellation of orders will be honored after they have been cut. Depending on scheduling production could begin as soon as one (1) to three (3) days after receiving order.

Freight Claims

Cushions and umbrellas are inspected and received by the freight carrier in new condition. It is the responsibility of the buyer to inspect the merchandise upon arrival and file a damage claim with the carrier. Do not accept the order if damage is evident. The customer receiving the order should file with the appropriate carrier. All labels on FedEx orders will be marked with the number of boxes shipped. FedEx orders may not arrive all in the same day. Please allow two days to receive the complete order because FedEx will often split up shipments. Please notify us of any shortages immediately.

Fabric

Jordan Manufacturing is not responsible for dye lot changes within the Jor Collection.

Matching Prints

All cushions are randomly cut unless specified. Matching is subject to a 45% up charge.

Umbrella & Cushion Warranty

JMC warrants the quality and workmanship of our cushions and umbrellas for a period of one (1) year from the original JMC invoice date. This warranty is limited to normal use and proper care by the purchaser. It does not include commercial uses or normal fading of fabrics. JMC is not liable if the customer fails to use proper cleaning techniques in regard to fabric care and maintenance. The warranty is void if failure of the cushion/umbrella is caused by acts of nature, accident, neglect, abuse and/or failure to take reasonable care of the product. All measurements and specifications are approximate.

Umbrella frames are not warranted against freight or wind damages. Freight damage claims should be filed with the freight carrier. Warranted items must be returned freight prepaid prior to repair and accompanied by invoice number and date of invoice. Warranted items will be given immediate attention and will either be repaired, replaced or credited accordingly. Do not use patio umbrellas during windy conditions. Always close or remove them from tables when not in use. A bolt down deck plate or base filled to capacity should be used in conjunction with dining tables to stabilize umbrellas. Do not use umbrellas as "free standing" items unless properly supported.

OUTDOOR FABRICS

We offer high quality outdoor fabric for all replacement cushions and patio umbrellas. The outdoor fabric is exclusively designed for outdoor use. We offer our customers a wide selection of outdoor stripes, solids, and prints to choose from.

- All of our fabrics are made for outdoor use unless otherwise specified
 - All fabrics are liquid and stain resistant
 - It is ok that your fabrics and cushions get wet
 - Every fabric is fade, mildew, and rot resistant
 - There is no need to treat your cushions with protectants
 - Fabrics are included in cushion price shown
- To prolong the life of the fabric store cushions and umbrellas indoors during winter or inclement weather
- To prolong the life of your cushions, spread a towel over the cushion when using baby oil, suntan lotions or oils. These products tend to breakdown the U.V. factor in the fabric and can cause premature fading.
- Spilling food or drink onto your cushion can cause bacteria to be trapped between fibers and threads, causing mold to grow. Periodically clean your cushions with mild soap and water to safeguard against this. Fabric itself does not support mold, but the bacteria can become trapped between weaves.
- Fabric Prices are based on grade and weave of the fibers used in the fabric as well as hours of U.V. protection.

Solution Dyed Acrylic (SDA)

Woven from Solution Dyed Acrylic Fiber. Will retain its color and vibrancy for years. Soft, Comfortable, Breathable Fabric with a Soil and Stain Resistant Finish. Cleans Easily, Resists Mildew, Rot and Atmospheric Chemicals. Best Long-Term Value. Approx 1000 hours of U.V. protection from fading. 5 year limited warranty on the fabric only.

Acrylic Linen

Woven from Solution Dyed Acrylic Fiber. Will retain its color and vibrancy for years. Soft, Comfortable, Breathable Fabric with a Soil and Stain Resistant Finish. Cleans Easily, Resists Mildew, Rot and Atmospheric Chemicals. Best Long-Term Value. Fabric is exclusively designed for outdoor use. 5 year limited warranty on the fabric only. Approx 1000 hours of U.V. protection from fading.

Solution Dyed Polyester (SDP)

Solution Dyed Polyester fibers are some of the most colorfast & economical in the industry. This is because SDP dyes are applied before the extrusion process creating a consistent color throughout the fiber. Therefore making the fabric highly durable for outdoor settings. Not only does this keep the sun from fading the fabrics, but it also allows homeowners to clean the cushions and pillows with bleach if stains or mildew arise. Solution Dyed fabrics can also be perfect in high-traffic areas such as breakfast nooks, or family room furniture – no more worrying about stains!

Olefin

Olefin Fiber is Solution Dyed then Woven, Retaining Color and Vibrancy for Years. Olefin will resist Stains, Mildew, Fading, and Abrasions. Easy-Care, Open Weave Construction Stays Cool. Fabric is exclusively designed for outdoor use. Olefin is an economical alternative to solution dyed acrylics. Approx 1000 hours of U.V. protection from fading.

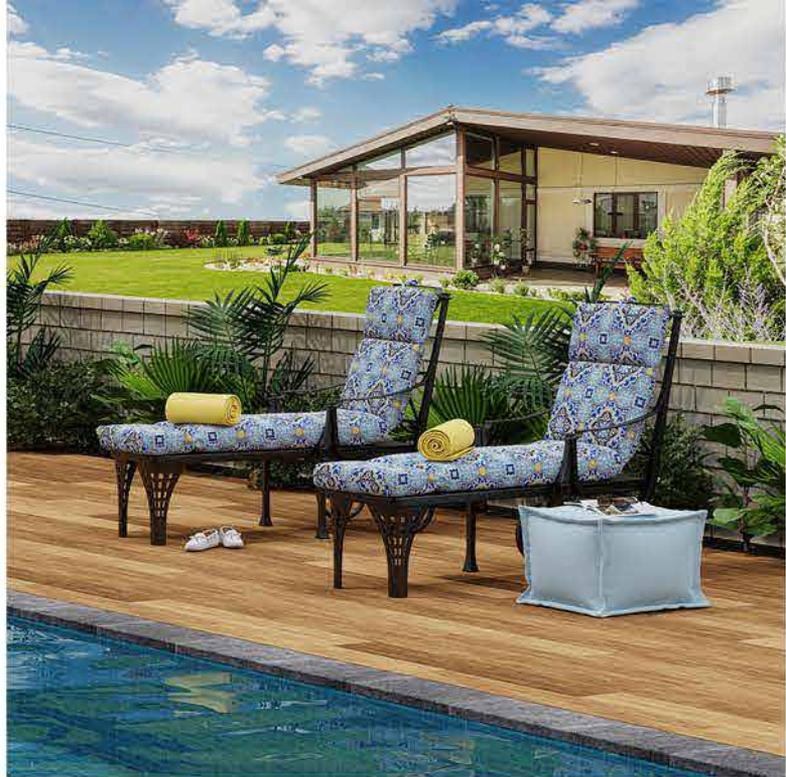

Tspun Polyester

A combination of Spun and Filament fibers. Resists Stains, Mildew, Fading, and Abrasions. Fabric is exclusively designed for outdoor use. Approx 500 hours U.V. protection from fading.

Filament Polyester

100% Polyester Material. Treated for Soil and Stain Resistance. Easy Care, Open Weave Construction Stays Cool and Comfortable. Fabric is exclusively designed for outdoor use. Approx 500 hours U.V. protection from fading.

CUSHION CONSTRUCTION

The Jor Collection is our extended line of high end patio cushions designed for customers who desire the best in fabric, design, and quality. We offer a wide range of replacement cushions to fit most furniture styles. Jordan has the ability to design and match various furniture manufactures' cushions in a replacement capacity. In many cases we offer a higher level of quality and design than the original manufacturer. Our formula for design and quality, coupled with hundreds of pattern choices add up to a formula that is second to none in the industry.

JMC's EPS Recycled Story

Our EPS filler uses recycled resins from scrap polystyrene that make products more economical and eco-friendly. What is good for the environment is also good for your company's profitability. JMC's EPS fill costs less than newly created polystyrene and be recycled after they're used – indefinitely! Our filler has been independently tested and proven to perform as well or better than our competitors new polystyrene. So by choosing JMC's products with recycled EPS fill you can do the right thing for the environment without compromising quality.

Our Recycled EPS fill is 100% Produced & Recycled in the USA supporting jobs and economic development in communities here at home.

CUSHION EDGES

Box Edged

Box Edges are made up of three different pieces of fabric. A top, bottom and side layer come together to form box like edges.

Knife Edged

This type of edging has more of a rounded corner. Top and bottom layers of fabrics are sewn together for a tapered, clean edge.

French Edged

This edge has a box like look without welts or piping. The corners of the cushions are precisely sewn to achieve the clean appearance.

CUSHION FILLING

Foam Filling

Foam filling gives the cushions rigidity for long-lasting support. The foam also helps the cushion retain its shape. Foam is often used for our outdoor pouf cushions.

Layered Fiber

This type of filling is produced in different thicknesses and densities. This gives the cushion a more tailored appearance.

Blown Fiber

This fiber has the appearance of cotton, but has a much slicker feel to it. A cushion filled with blown fiber, achieves a pillow like feel and appearance for cushions such as wicker seat pads and toss pillows.

Expandable Polystyrene

EPS is a rigid cellular plastic foam material that is used across a broad range of industries because of its extremely versatile properties. Properties that would include Durability, Flexibility, Buoyancy, Lightweight & Recyclability.
